README

README

[General Deployment of AIO Step by step](#):

This is the general deployment of all-in-one standalone lab. You should first read this file or read both this article and the specified document for all-in-one server with different OS system, for instance, the article named AIO-13 LAB SETUP, AIO-16 LAB SETUP or AIO-19 LAB SETUP.

AIO-<version> LAB SETUP:

This article distincts from the article 'General Deployment of AIO Step by step'. If you need to find the specific deployment for all-in-one servers with different OS system, please verify them in the article with such title.

Here are related hyperlinks:
